

REMARKS:

Claims 1-9 are in the case and presented for consideration.

In reply to the Examiner's objection to the drawing, the drawing has been corrected to include schematic representation of each of the features called for in the claims and no new matter have been added since the features were all disclosed in the application as originally filed.

To address the Examiner's rejection of the claims under 35 U.S.C. 112, second paragraph, corrections have been made to the specification and claims to improve their form so that the application and claims are now believed to be in proper form.

The Applicants gratefully acknowledge the Examiner's indication of allowability for all of the claims so that by this amendment, the application and claims are believed to be in condition for allowance, and further favorable action is respectfully requested.

No new matter has been added and if any issues remain, the Examiner is respectfully invited to contact the undersigned at the number below, to advance the application to allowance.

Respectfully submitted,
/PETER C MICHALOS/
